Your comments on Principle 7

I'm not qualified to comment in detail. However, in principal, the reports recommended in this section should also be made available in the public domain for transparency and benchmarking

Principle 8

In your view, will compliance with this Principle and its Requirements contribute to the prevention of catastrophic failure of tailings facilities?

Partially

Which aspects of Principle 8 do your comments relate to?

Comments on the Principle itself

Your comments on Principle 8

I believe an opportunity for full transparency has been missed with requirement 8.4. These principals should aim for full, instant, transparency using the highest monitoring standards. Given the recent developments in onsite live monitoring, drone reviews and even geo-spatial technology - live, public, monitoring should be the goal. Without this I fear this stand will be usurped by local NGO's under-mining this industry opportunity to be more open
