Part 3: Your views on the Standard

Your view as to whether the content of the Standard meets your expectations

Your view as to whether the content of the Standard meets your expectations (closed question):

4: Goes somewhat beyond my expectations

Please summarize why you chose this option:

I've the feeling that this is not only a "make up" initiative in order to build a better reputation of the Mining Industry in the sustainable economy era. All the key points to make this initiative a real new standard are included.

Your view on whether the Standard will create a step change for the industry in the safety and security of tailings facilities

Your view on whether the Standard will create a step change for the industry in the safety and security of tailings facilities (closed question):

4: Will deliver improvements across all aspects of the safety and security of tailings facilities

Please summarize why you chose this option:

If taken seriously by the stakeholders, with a concrete effort to translate the words in facts, the new standard can really change the paradigm of tailings management.

Does the content of the Standard address all aspects of tailings facility management adequately?

Does the content of the Standard address all aspects of tailings facility management adequately (closed question)?

Yes

Please explain why and/or what is missing:

Part 4: Suggestions for topics to be included in the accompanying Recommendations Report

On which topics would you expect to have further clarification or guidance in this document?

I'd like to understand better the connection between the definition of the standard and the real consequences in term of Investments and operating decisions by the mining companies. The standard is a necessary premise and guideline, but I'm not sure how binding it will be.
